SUMMARY

Detail-oriented Full Stack Web Developer with over 3 years of experience in designing and developing robust web applications. Skilled in both front-end and back-end technologies, with a strong focus on creating efficient, scalable, and user-centric solutions.

WORK EXPERIENCE

R.R. Donnelley - Chennai

Mar 2023 - Present

- Work closely with UX/UI designers, product managers, and other stakeholders to gather requirements and translate them into technical specifications, ensuring alignment with business objectives.
 - Create and implement scalable web applications using modern frameworks such as React, Next.js, Node.js, and Express.js, ensuring responsive design and optimal performance across devices.
 - Conduct code reviews and implement automated testing strategies to ensure high-quality deliverables and reduce bugs in production environments.
 - Maintain comprehensive documentation of code, APIs, and system architecture to support ongoing development and facilitate knowledge transfer within the team.
 - Involved in code reviews, architectural discussions, and direct client issue resolutions.
-

PROJECTS

1. CMS (Content management system):

[R.R. Donnelley]

Description: CMS is a software platform used to handle changes in website content creation, enabling multiple authors to develop, update and export websites with the help of our web application.

Technologies used: Next.js, Redux, Express, MongoDB, JWT, MUI

Responsibilities:

- **Frontend Development:**
 - Developed a dynamic, responsive interface using Next.js and Material UI, ensuring a smooth user experience.
 - Integrated user roles (Admin, User) with role-based access control (RBAC).
 - Integrated state management using Redux to handle global application state.
- **Backend Development:**
 - Developed RESTful APIs using Node.js and Express to handle business logic, user data, projects data, and content management.
 - Designed and implemented a MongoDB database schema to manage users, projects, and components, ensuring data integrity and scalability.

2. TRACKER (Work management system):

[R.R. Donnelley]

Description: Tracker is a web application used to handle employees day to day task, managing clients and projects, monitoring hours utilized by a person and total hours to complete a task.

Technologies used: React, Redux, Express, MongoDB, JWT, React router

Responsibilities:

- **Frontend Development:**

- Implemented advanced task filtering and sorting features, allowing users to categorize tasks by priority, deadline, or status.
- Created an interactive routing process using React Router for seamless navigation between pages.

- **Backend Development:**

- Managed authentication using JWT, securing user data and protecting API routes.
- Designed and built a RESTful API using Node.js and Express, managing tasks, users, and projects data.
- Used MongoDB to store task details, user profiles, projects, and clients.

3. Landing pages (Fiserv, Humana, Nasdaq, Cona, Worldpay):

[R.R. Donnelley]

Description: Developed high-converting, responsive landing pages from scratch, focusing on user experience (UX), brand consistency, and lead generation goals for various clients.

Technologies used: HTML, CSS, Javascript, JQuery, swiper.js, GSAP

Responsibilities:

- **Frontend Development:**

- Designed and implemented responsive, dynamic user interfaces using, ensuring compatibility across all major browsers and devices.
- Reduced page load times by optimizing images, using lazy loading, and minifying CSS/JavaScript files to ensure high performance and low bounce rates.
- Built visually appealing landing pages using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and fast load times.

EDUCATION

BCA, Cloud technology and information security

2018 - 2021

BSA Crescent Institute of Science and Technology, Chennai

Project: CRESCHAT Student & Teacher social media web application

ADDITIONAL INFORMATION

- **Technical Skills:** HTML, CSS, Scss, Javascript, JQuery, GSAP, Typescript, React, Next.js, Node.js, Express.js, MongoDB
- **Tools & Platforms:** Git, GitHub, Jira, VS Code
- **Languages:** English, Tamil, Hindi, Urdu
- **Awards/Activities:** Received the "**Achiever of the Quarter**" Award for delivering the CMS, R.R. Donnelley & Received the "**Innovator**" Award for developing the Tracker, R.R. Donnelley
- **Certifications:** Complete React.js course - Udemy
