

Mohamed Shaheed A

Full Stack Developer

☎ 7339086231 ✉ mohamedshaheed8055@gmail.com 🌐 [Portfolio](#) 🌐 [LinkedIn](#) 🌐 [GitHub](#) 📍 Chennai

Detail-oriented Full Stack Developer with over 3+ years of experience in developing high-performance web applications. Strong background in front-end frameworks, backend API development and passionate about writing clean code, collaborating with cross-functional teams to deliver production-ready applications.

WORK EXPERIENCE

R.R. Donnelley - Chennai

Mar 2023 - Present

- Work closely with stakeholders to gather requirements and translate them into technical specifications, ensuring alignment with business objectives.
- Developed responsive, user-centric UI components in **React.js** and **Next.js**, ensuring 95%+ cross-device compatibility and optimal performance across all screen sizes.
- Developed robust backend **APIs** using **Node.js** and **Express.js**, implementing **RESTful** endpoints with **MongoDB** for efficient data management and retrieval.
- Optimized application performance through lazy loading, code splitting, state management optimization, and database query optimization, improving load times by 35%.
- Conduct code reviews and implement automated testing strategies to ensure high-quality deliverables and reduce bugs in production environments.

EDUCATION

BCA, Cloud technology and information security

BSA Crescent Institute of Science and Technology, Chennai / 2018 - 2021 / CGPA - 8.2

AWARDS

- Received the "**Achiever of the Quarter**" Award for best performance - (2024, 2026)
- Received the "**Rising Star of the Year**" Award for outstanding work in the Tracker - (2025)

React.js, Next.js, HTML, CSS, SCSS, JQuery, GSAP

Backend:

Node.js, Express.js, RESTful APIs

Database:

Database

Tools & Platforms:

Git, GitHub, Jira, VS Code

PROJECTS

CMS (Content management system)

- Developed a comprehensive content management platform enabling multiple authors to create, update, and export website content
- Built dynamic content creation interface with real-time validation and preview functionality

IMPACT: Reduced content publishing time by 60% and improved team collaboration efficiency.

TRACKER (Work management system)

- Built a comprehensive task and project management application for employee productivity tracking
- Implemented task assignment, status tracking, time logging, project timeline management features and role-based access control (RBAC)

IMPACT: Improved team productivity tracking accuracy by 50% and enhanced project visibility.

Landing Pages (B2B/B2C)

- Developed high-converting, responsive landing pages for multiple clients from design mockups to production. Implemented smooth animations using GSAP and complex UI functionality.
